

## *Tyge Legier*

*I started calling part time in 2004. I like the people, music, and patterns of English Country Dance. As an engineer, I have a background in mathematics, and the patterns of English Country Dance remind me of tile theory! Most of all, however, I just enjoy being around fun intelligent people.*

## *Karin Norlin*

*I discovered English Country Dancing late in life and loved it immediately. When I helped start a group for beginners, callers were needed and I became one of them. I have enjoyed calling ever since.*

*Some other interests of mine: I play hand bells in the church, and also recorder in a group where we play mostly classical music and even some English Country Dances.*

*All my musical and dancing activities involve teamwork, and I love it!*
